Reverse Glass Painting

Reverse glass painting is an art form that consists of paint being applied to the back of glass and then viewed by turning the glass over and looking through the glass at the image. This form of painting has been used for centuries throughout the world, including Ukraine. Many Ukrainian artists used this technique when painting scenes of their villages, landscapes, people in folk costumes, and in iconography in the Ukrainian Orthodox or Ukrainian Catholic traditions.

In this workshop, young artists will learn to apply this technique and create their own guardian angel painting on glass.
