## **About the Petrykivka Painting Style**

The Petrykivka painting style originated from an ancient decorative art tradition in central Ukraine that was used for ornamenting whitewashed walls, ceiling beams, hearths, and household items. Petrykivka paintings are characterized by vivid colors and by flower, tree, and bird imagery that reflects the unity between humans and their natural environment and the cyclical rebirth of life.

In 2013, the United Nations Educational, Scientific and Cultural Organization (UNESCO) added the Petrykivka art form to its Representative List of the Intangible Cultural Heritage and Humanity.
